Dear Professor Gerbner:

At long last I have had the opportunity to read your impressive account of the evils on Television and the dire effects on children. I personally see very little Television so I cannot attest the damage, but I agree profoundly with your efforts to curb the evils. Some of situations were so shocking I was dismayed.

Best wishes for your continued efforts to change and eliminate the dreadful programs.

Once more my heartfelt thanks to you and Mrs Gerbner for the pleasant dinner and conversation with you.

Cordially
Esther M Klein
