Dear Dean Gerbener,

Thank you so much for being so prompt in sending the endorsement letter for Kids Tower. I have enclosed your copy of the proposal.

I can hardly contain the excitement I feel about the project. As I conducted preliminary research, I could not help thinking on the question, "What is the problem?" I cannot thank you enough for the vast and insightful messages you communicated to me at Annenberg. I am forever grateful that I can count myself among your many pupils.

Be assured, I will keep you abreast of developments. We are making fine progress.

Until next time, I wish you the best.

Yours truly,
Lucretia
