More

Lib. apologists for the
"free m of ideas" - not
only unconvincing but
hilarious.

New - lot money of
1-2 few wholesalers

Notes

Firms

all in the name
of the free m.
of ideas.

MARKET (FETTER)
PR. → limit interest in
being a business. & M is
never free or owner. - by
definition. Efficient in
setting prices - yes; but →
→ Plutocracy.

Indeed - the only way to
free op is to remove it
from the state - indep of
both bus & gov't (bureaucracy,
clerk, civil serv.)

Extend h+A - no laws →

no case or public gov't
trg, artif, any; ^{unauthorized - ~~crim~~}
Rep advisory com (not veto w)

Consolidating
vs speed

Market

Myth of consumer sovereignty
in the death of democracy.
Highly structured & limited
categories of option → pseudo
choices ("marginal" household
differentiation) suitable for
equally non-boss "life styles"
household products - value added
by advertising - stories
about values & choice.
Many values & pseudo-decisions.

MARKET

"Using market mechanism
to determine the [true] logic
or merit of ideas reduces
ideas to commodification"
CSCS 196) Market = invisible
eye for both - commercial &
politics. (cf. licensing)

Colonizing order &
hope

There are no free markets -
any markets controlled by
CCP gov, capt (COP), middle or
private. M's are complex &
hierarchical organizations
cannot exist w/o rules, order,
power, control. Not a
