Deliverables: 1. Outline of report and update on consequences of exposure. 2. First draft of comprehensive report. 3. Final report. Delivered Sept. 1994. Too much, too detailed, too many parts. Lends itself to 3 reports:

1. Viol and drugs content with summary of past cultivation. (Underrep., overvict. Saturday morning children's programs exacerbate. Demography of drug use. Cultivation: indications of vulnerability, mistrust, anger (polit. fallout -- low vote, esp. those bearing burden); doom & gloom; less concern about smoking, health, nutrition -- farreaching results! Need more.

Down-out

Unig debate. Kofsky - 3/4 dent

2. Econ. underpinnings; what drives violence. Total challenge to prevailing rationalization; ammunition to action programs.

3. Action program; organizing a coalition on the cultural front. Responsive! In 2 weeks - CNBC; Webster U. Last mon. Okla, U Houston; from each dozens of new prospects, orgs. fertile field. Need next step -- take-off.
