Dear Dr. Dyson:

Enclosed are five attachments. My response to Kathleen's memo of 10/28/99
Kathleen's memo, Kathleen's questions to the CEM offices, the responses from the
CEM office, and some documentation of a check that Kathleen highlighted.

Please be aware that none of these responses address the fundamental crisis that
CEM faces, which is the regular decrease in assets and an absence of fundraising
initiatives.

An important problem is that our financial audit report has now been stalled.
Without this audit report we are delinquent on our report to our state's attorney
general. This important problem needs decisive resolution.

The status of our Executive Director also must be decided upon, by the full Board,
as per earlier rulings.

Sincerely,

George Gerbner
President, CEM
