OHIO UNIVERSITY

January 28, 1998

Dr. George Gerbner
c/o Cultural Environment Movement
P. O. Box 31847
Philadelphia, PA 19104

Dear Dr. Gerbner:

On behalf of Ohio University's Division of Lifelong Learning, I wish to extend an invitation to the members and friends of the Cultural Environment Movement to hold their convention on our campus March 25-28, 1999.

We would look forward to the opportunity of hosting such a dynamic, socially conscious group as the Cultural Environment Movement, recognizing that such an event would offer a unique educational experience for our students, faculty and local community. In addition, the convention participants would have the opportunity to learn about our University and the diverse community in this delightful Southeast Ohio setting.

The University is pleased to be able to provide logistic and conference support services for the convention. At the same time, however, please note that, at this point, no University funds are available to support the convention. All costs for the event must be budgeted in accordance with OU policies, and are to be paid for by registration fees, the Cultural Environment Movement organization, and/or other outside funding sources as may be made available.

Again, we invite you to convene on our campus, and we welcome the opportunity to work with you on such a unique, stimulating, and educational event.

Sincerely,

A handwritten signature in cursive script, appearing to read "T. Shostak".

Thomas Shostak, Dean
