United Transportation Union
PO Box 31
Niota, Illinois, 62358

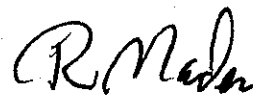

Dear Mr. Murphy:

What a thoughtful gift of Eugene Debs' Walls and Bars. Thank you. Even more encouraging is that there are union people still out there with a sense and desire for historical preservation that provides a vital link of understanding the present and correcting its complacency.

If you have any other out-of-print books on labor history, let me know and let me compensate you for finding them.

Are you reaching the younger generation of workers?

Sincerely,

PS: Under separate cover, I'm sending you our book titled Reagan's Ruling Class.
